HUGO IP54 LED CEILING LIGHT

Our latest design is attractive, slim and durable with the added feature of full IP54 rating making it suitable for many wet areas and outside uses where water splashing can occur.

The product has enclosed cable entry and gasket seals supplied and fitted.

Very even illumination and available in three different sizes to suit residential and commercial applications. Please note when installing there is a cable entry offset of approx 75mm from centre. Easy installation system.

Fitting is double insulated.
