

Dimmable LED Downlight

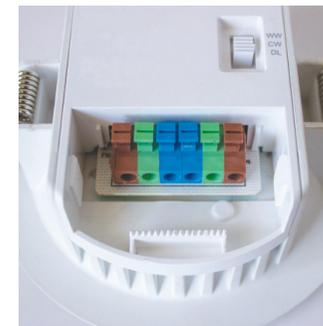

133lm per watt make this one of the most efficient LED downlights on the market. 6W is equates to a 50W Halogen or 8W LED downlight. At 8W this is a 25% power saving vs 8W LED with the same performance.

Available in flush front and regress front face to ensure we cater for both markets. High lumen LED chips provide fantastic efficiency.

Key Features

- 133lm per Watt (25% power saving vs 8W LED downlight)
